

Name of School: _____

Date of School Plan Review: _____

Consider:

- What changes have you made to your school plan since your last submission? Why? (supporting evidence)
- How are you aligning your school plan (where school data demonstrates a need) with the district plan of *meeting the needs of each learner* and identified target groups (i.e. aboriginal learners, boys, ESL/refugee learners, early learners and students not meeting expectations)?

Focus:

- Who, specifically, are your learners?
- What, specifically, are you focusing on to enhance their achievement?

Actions:

- What “changes” have been made to support their learning?
- What strategies/structures/interventions have been considered/put in place to support these learners?
- How are you organizing your school community to ensure instruction improvement?

Monitor:

- How has the tracking of individual student progress been updated?

Outcomes/Results:

- Are the strategies/structures/interventions making a difference?
- Does data indicate improvement or growth?

Adjust:

- Given your findings, what additional deletions/changes will you put in place to continue to enhance student achievement?
